FB7200 IND CONTROL PANEL

CAPABILITY WITH A TOUCHSCREEN DISPLAY

The FB7200 Industrial Control Panel integrates the advanced FB7200 series weighing instrument into a stainless-steel control panel for tough industrial environments. The control panel ships wired for instrument power and an included relay control board with four relays. Four pre-punched and plugged front-panel holes are included for use with pushbutton switches (sold separately), five bottom mounted cable glands, and eight inches of internal DIN rail for accessory mounting.
