# Aegis® Drum Scale

*Customize this scale with pillar, ramp(s) and instrument.*

Fairbanks' Aegis® Drum Scale is not just for weighing drums. Its live side rails make it ideal for weighing a number of other industrial containers such as pallets, totes and bulk products. In fact, Fairbanks designed this scale with precision and a host of options to change your expectation of how a drum scale should

look and perform. Choose from two models, our classic Aegis Drum Scale or our Aegis Drum Scale with backstop. Both models come in two platform sizes, mild or stainless steel construction, and one of four capacities. Add ramps, a pillar, and a wheel kit as required to create your ideal configuration.

- **Stationary**
- **Live side rails**
- **Stainless steel load cells**
- **Low 1.5" profile**
- **NTEP and MC approved**
