

FAIRBANKS®

1605T SERIES REMOTE DISPLAY WITH INTEGRATED TRAFFIC LIGHT

Fairbanks high-intensity LED remote display with integrated traffic light is designed to save scale customers time, space and money by combining traffic control and display functions in a single device.

DESIGNED TO WITHSTAND THE ELEMENTS

Fairbanks Scales' 1605T Series remote displays are made to perform in the harsh, real-world environments that truck scale applications demand. Wet, dirty, dusty, hot, cold — outdoor conditions do not matter to the 1605T, it just keeps on displaying. With a unique learning ability, the 1605T is compatible with every known scale instrument that has continuous output capability.

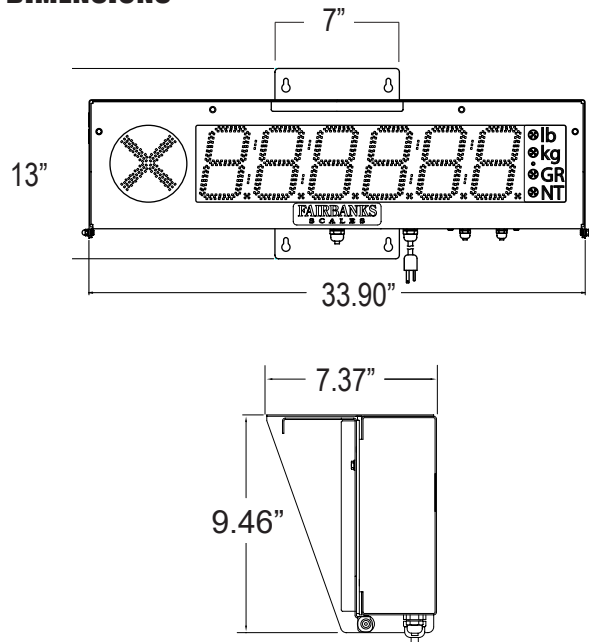

1605T FEATURES

- Bright red, high-intensity LED with 5.0" characters.
- Large 5" Diameter Green dot/Red X.
- NEMA 3 rated enclosure for outdoor use.
- Auto intensity sensor that automatically adjusts weight display brightness for existing lighting conditions.
- Gross and Net legends (GR-NT).
- LB and KG legends.
- Wireless RS232.
- Programmable learning interface.
- Time and date capability (standard).
- Optional temperature module.

SPECIFICATIONS

Display type	High-intensity, light emitting diode (LED)
Digit color/size	Bright red, 5.0"
Traffic light color/size	5" diameter Green dot/Red X
LED life expectancy	More than 11 years
Time/Date functions	Standard
Power	117 VAC +/- 15% 50/60 Hz, 100 mA
Storage Temperature	0° F to 150° F
Interface to RF modem	RS232 RS485 20mA (active or passive)
Enclosure material	Painted steel, black, powder coat
Enclosure rating	NEMA 3
Viewing distance	Up to 300 feet
Mounting options	Pole or wall mount (see accessories below)
Humidity	0% to 95% non-condensing
Shipping weight	35 lbs
Accessories	Optional temperature module, Pole and pole mounting hardware, Wireless Rs232, Relay box for traffic light control
