### **TALON HV & HVX SERIES**

#### **ABOVEGROUND FIELD POUR TRUCK SCALES**

Built on a proven orthotropic design, the Talon boasts the longest-lasting construction of any field pour truck scale in the industry.

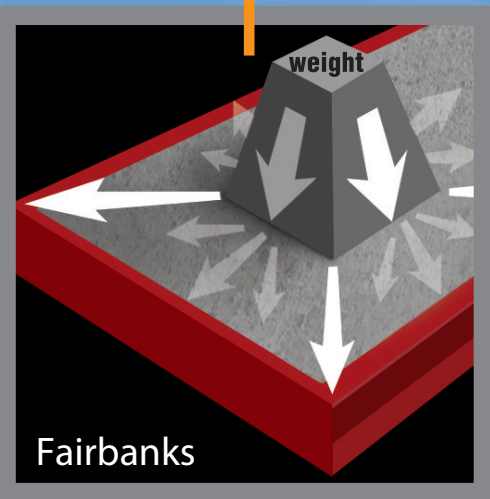

# TALON

# HV | HVX FIELD POUR

Experience a scale like no other. The Fairbanks Talon Field Pour boasts the longest-lasting construction of any truck scale in the industry. Built on a proven orthotropic design, the Talon has numerous design achievements that stand out over the competition. With tens of thousands of Fairbanks truck scales sold to date, the Talon is sure to be a great addition to your weighing system.

### Solid deck design

By placing the load cells in easily accessible and serviceable areas beneath the scale, instead of inside the deck, Fairbanks has eliminated the need for cover plates. This design ensures a more structurally sound scale deck that resists metal fatigue, deflection, and internal deck cracks.

**12' wide decks** are available. Extra deck width accommodates larger trucks and equipment, and ensures easier scale navigation.

# THE NEXT GENERATION IN TRUCK SCALE DESIGN

Solid Deck Design

Intalogix® Technology

Encapsulated Circuit Boards

Incredibly strong modules, built to federal bridge standards

Cabling protected with ArmourGuard stainless steel sheathing

“True” hermetically sealed Minebea Intec load cells

Easy installation and maintenance

**Legal-for-trade dump-through modules** have an all-steel design and are available in custom sizes and placements.

**25 YEAR  
LOAD CELL  
WARRANTY\***

**Paint** for all exposed metal scale components is a chemically cross-linked, two-component, acrylic urethane industrial coating system that stands up to wear.

**INTALOGIX™  
TECHNOLOGY**  
This innovative design feature isolates and guards your scale investment against power surges and dangerous electrical strikes.

**Sectional controllers** optically isolate load cells, providing the best surge and lightning protection available.

**Encapsulated circuit boards** provide the best protection in the industry against moisture damage. Our encapsulating material was first used in aerospace applications.

**Minebea Intec rocker column load cells** have true hermetic seals to prevent moisture intrusion and are electrochemically polished to retard corrosion in the most caustic environments.

### SPECIFICATIONS

Capacities . . . . .	60 ton to 150 ton (HV) 60 ton to 150 ton (HVX)
CLC . . . . .	90 k (HV) 100 k (HVX)
Platform sizes	
Lengths . . . . .	10' to 120' standard Custom lengths available
Widths . . . . .	10', 11' and 12' standard
Minimum division size . . . . .	10 lbs
Sections . . . . .	2 to 7
Modules . . . . .	1 to 6
Module data:	
Design . . . . .	Orthotropic
Construction . . . . .	HV features multiple 6" and 10" I-beams HVX features multiple 6" and 12" I-beams With 1/4" support pan Filled with on-site poured concrete
Under structure . . . . .	Open bottom
Deck thickness . . . . .	10" (HV) 12" (HVX)
Cover plates . . . . .	No
Checking . . . . .	Bumper
Approvals . . . . .	NTEP CC# 96-089, MC# AM-4949
Load cell:	
Height . . . . .	4.66"
Capacity . . . . .	66,000 lbs (HV) 110,000 lbs (HVX)
Type . . . . .	Rocker column
Sealing . . . . .	Welded, hermetically sealed, gas filled
Material . . . . .	Element - 420 Can - 304
Rating . . . . .	IP69K
Resistance . . . . .	1,000 ohms
Output . . . . .	2.4 mV/V
Excitation . . . . .	4 to 24 VDC
Ultimate overload . . . . .	300%
Cable length . . . . .	15'
Cable protection . . . . .	Stainless steel braid ArmourGuard
Approvals . . . . .	NTEP CC# 14-024, Factory Mutual, CE, OIML R60/2000-DE-08.11

### ACCESSORIES

Scale Instruments

Traffic Signals

Custom software

Remote Displays

Ticket printers

Driver Assist Terminals

### OPTIONS

- Blow-down plates
- Custom sizes
- Dress plates
- Drop plates
- Dump through deck
- Coal Tar undercoating
- Guide post kits
- Intrinsically safe electronics
- Load cell riser plates
- Manholes (square)
- Rub rails
