

# Truck Scale Rental Program

WWW.FAIRBANKS.COM

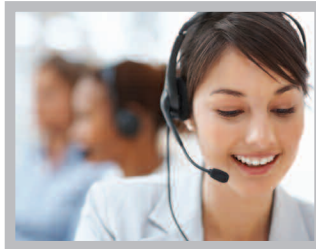

## Uptime is our top priority

Fairbanks has the reliable weighing equipment you need to create a temporary truck scale weighing operation for commercial highway vehicles, heavy-duty off road vehicles, or non-commercial axle weighing applications.

With strategically located rental scale stocking centers, more than 30 service locations and 300 service personnel nationwide, Fairbanks' dedicated factory-trained technicians ensure a quick quality install to get your weighing operation up and running.

Flexible terms, reliable products and nationwide service are just a few of the guarantees Fairbanks provides. To find out more, connect with your local Rental Scale Representative by calling 1-800-451-4107.

### FOUR EASY STEPS TO UPTIME

Call us to arrange a technician site survey.

Site survey is completed and a delivery time is set.

Scale is delivered, anchored, wired to instrument, calibrated, and approaches installed or formed — all in a single day.

Up and running.

- **National network of rental scales delivered in as few as three days**
- **Factory certified set-up and calibration enables rapid installation**
- **Legal-for-trade scales available for commercial weighing applications**
- **Best Truck Scales in the industry**
- **Scale instrument and rub rails included with rental**
- **Affordable weighing solution, monthly rates available**
- **Variety of products and solutions**

**1-800-451-4107**

*Steel approach and ramps now available for highway vehicle applications!*

## FOR HEAVY-DUTY VEHICLES

### TITAN SERIES PV TRUCK SCALE

For commercial weighing, the Titan PV can accommodate standard 18- and 10-wheeled vehicles, as well as some off-road vehicles, like the Euclid R25 and TEREX 3308.

Deck dimensions . . . . .	Lengths: 70' x 10'
CLC . . . . .	100k
Gross capacities . . . . .	125 T
Deck plate thickness . . . . .	3/8"
Approaches and ramps . . . . .	Formed on site
Rub rails . . . . .	Included
Module data . . . . .	Orthotropic, open bottom
Approvals . . . . .	NTEP CC# 96-089; NTEP and FM approved load cells
Instrument . . . . .	2500 Series

## FOR HIGHWAY VEHICLES

### TALON SERIES PV TRUCK SCALE

The Talon PV is perfect for legal-for-trade on-highway vehicles. It is easily moved and identical to the most popular Fairbanks truck scale sold for permanent installations.

Deck dimensions . . . . .	Lengths: 70' x 10'
CLC . . . . .	90k
Gross capacities . . . . .	120 T
Deck plate thickness . . . . .	1/4"
Approaches and ramps . . . . .	Available through Fairbanks Rental or formed on site
Rub rails . . . . .	Included
Module data . . . . .	Orthotropic, open bottom
Approvals . . . . .	NTEP CC# 96-089; NTEP and FM approved load cells
Instrument . . . . .	2500 Series

## FOR NON-COMMERCIAL AXLE WEIGHING

### PORTABLE AXLE LOAD SCALE - PALS

For non-commercial axle weighing, Fairbanks' Portable Axle Load Scale offers easy portability and standard entrance and exit ramps that accommodate the wheel base of most highway vehicles. The PALS is constructed in a sub-frame to eliminate the need for a pier or slab foundation. A flat, unyielding surface (asphalt or concrete) is all that is needed for instant setup.

Deck dimensions . . . . .	7' x 10'
CLC . . . . .	80k
Gross capacity . . . . .	60 T
Ramp dimensions . . . . .	10' x 30" x 6"
Deck plate . . . . .	1/4"
Sub-frame . . . . .	6" channel
Instrument . . . . .	FB2250 Series

## TEMPORARY SCALE SUB-FRAME RENTAL — AN ALTERNATE SOLUTION FOR TRUCK SCALE BUYERS

If you are purchasing a new Talon PV or Titan PV Truck Scale and can't afford downtime while the scale foundation is constructed, Fairbanks' PV on the Spot program may be right for you. Through this program, your scale is delivered in a rental sub-frame that can be operational within a day.

When your foundation work is completed, relocate the scale to its permanent foundation and return the rental sub-frame to Fairbanks.

**See Fairbanks literature #100242 - PV On the Spot Program - for more information.**

## FAIRBANKS SERVICE HAS RESOURCES, EXPERIENCE TO SUPPORT YOUR SCALE OPERATIONS

With over 180 years of experience, 30 U.S. service locations and more than 300 factory trained technicians, Fairbanks is fully capable to keep you operational and accurate for the short or long term.
