SERIES II & SERIES III

GENERAL PURPOSE BENCH SCALES

Versatile, mild steel bench scales with integral instrument and instrument pillar, ideal for weighing in the field, warehouse or industrial plant.

SERIES II

GENERAL PURPOSE BENCH SCALES

Versatile, Portable and Affordable

- **Portable**
- **Adjustable Pillar**
- **Rechargeable Battery**
- **NTEP Approved**
- **Low Cost**

Fairbanks Scales Series II is a mild steel bench scale, with integral instrument, that offers exceptional general weighing features at a very affordable price. The Series II was designed to fulfill many weighing

requirements from inventory and parts counting, to food manufacturing, to shipping and receiving. With Fairbanks' quality craftsmanship at its core, this scale is made to provide years of uninterrupted, accurate performance.

Pillar is designed to lower and wrap around the base...

for easy portability...

and viewing flexibility.

Fully-charged battery provides more than 48 hours of continuous use!

Collapsible pillar arm

Most practical, portable scale in its class!

Platform sizes:
13" x 17" and
15" x 20"

Large 1", 6-digit, LCD display with back lighting function that can be engaged for increased visibility.

Five programmable buttons: On/Function, Off, Number of Parts, Zero and Tare.

Stainless Steel platform cover simply lifts off for instant access.

Platform comes with blue protective liner that's easily removed.

Durable welded tubular, mild steel base design.

SERIES II & III APPLICATIONS:

OVERLOAD STOPS BUILT INTO SCALE BASE

- Food Manufacturing
- General Purpose
- Inventory
- Manual Batching
- Material Handling
- Parts Counting
- Portion Weighing
- Product Manufacturing
- Shipping and Receiving
- Quality Assurance

To prevent the chance of overload damage to the Series II and Series III Bench Scales, Fairbanks has included overload stops in their design.

An overload stop (bolt) is positioned at all four corners, under each scale's base (see photo) to prevent torquing and subsequent load cell damage.

SERIES III

GENERAL PURPOSE BENCH SCALES

Battery Power, Rugged Construction and Printer Interface

The Series III Bench Scale with integral instrument, features an internal, rechargeable battery that makes it an optimum choice for outdoor produce weighing applications. It is also a heavyweight in industrial settings with its heavy-duty, double tubular, base design,

industrial-size mild steel platforms, and RS232 printer port. Like its sister scale, the Series II, the Series III can fulfill many weighing requirements and offers the accuracy and dependability that has stood behind every Fairbanks Scale since the company's founding in 1830.

- Food-grade Platform
- Tilt Adjust Indicator
- Rechargeable Battery
- NTEP Approved
- Accurate & Dependable

A 6-digit LCD display with large numeric readout and back lighting makes viewing easy in low light.

Fully-charged battery provides more than 48 hours of continuous use!

Eight programmable buttons: Units, Zero, Tare, Function, Number of Parts, On, Off, Print.

Low cost, high performance bench scale.

An RS232 port for quick printer connection is a standard feature.

Industrial stainless steel platform covers are easy to remove for sanitation.

Welded, double tubular base for strength and durability.

Platform sizes:
14" x 18" and 18" x 24"

Instrument has 75 degree tilt for operator viewing flexibility.

Blue, protective liner is easily removed for total stainless surface.

Load cell designed for premium performance.

COMMERCIALLY RATED SCALES

The Series II & Series III Bench Scales are NTEP and MC approved for legal trade in the U.S and Canada.

SPECIFICATIONS - SERIES II

Sizes and capacities
 13" x 17" 150 to 300 lbs.
 15" x 20" 200 to 600 lbs.
 Resolution 3,000d commercial,
 Selectable non-commercial
 Instrument Tilt adjust, full digital calibration,
 auto zero, counting
 Instrument pillar Lowers around platform for easy portability
 Instrument rating IP 54
 Units Pounds, kilograms
 Power requirements 110-120 VAC, with 9V/500 mA AC Adapter
 Battery Lead-acid with built-in charger
 Creep 0.05% (30 min.)
 Overload Safe = 150%, Ultimate = 300%
 Platform Construction 304 stainless steel
 Base Construction Welded tubular, cast aluminum design
 Approvals NTEP CC# 05-009, MC

Models/ Dimensions	A	B	C	D	E
13" x 17"	25"-26.5"	4.5"-6"	13"	19"	17"
15" x 20"	28.5"-30"	4.5"-6"	15"	21"	20"

SPECIFICATIONS - SERIES III
