## TRUCK SCALE RENTAL PROGRAM

Setting up a temporary weighing operation is easy with Fairbanks' nationwide Truck Scale Rental Program. Quick setup, reliable products and flexible terms are just a few ways Fairbanks' rental service can help you get the job done.

### FEATURES

- National network of rental scales.
- Quick, factory-certified, "same day" setup and calibration.
- Affordable weighing solutions, monthly rates available.
- Two exceptional portable scales: The Titan Series Portable Vehicle Scale and the Portable Axle Load Scale (PALS).
- NTEP approved models available.

### UPTIME IS OUR PRIORITY

Fairbanks has the reliable weighing equipment you need to achieve a high-efficiency, temporary truck scale weighing operation. With more than 150 service locations across the nation, our dedicated, factory-trained technicians ensure that our customers get the quickest, quality install available, so operations can start running, and stay running.

### FOUR EASY STEPS TO UPTIME

1. Call or email Fairbanks to arrange a site survey with a certified Fairbanks Technician — 1-800-451-4107.
2. During site survey, schedule a time for scale and crane delivery. Delivery can occur within 72 hours in most service locations.
3. "Same day" setup includes: scale placement and anchoring, indicator wiring, approach formation and scale calibration.
4. Mission accomplished. Operation is up and running. It's that easy!

### TITAN SERIES PV IS BUILT TO PERFORM

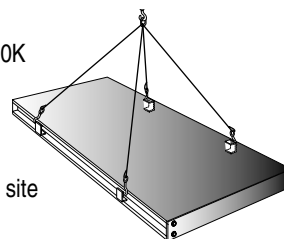

For commercial weighing, Fairbanks Truck Scale Rental offers the Titan Series Portable Vehicle Scale. Designed to the highest standards in the industry, the Titan PV outperforms all competing scales in its class, across the board.

The Titan PV not only can weigh standard 18- and 10-wheeled vehicles, but is strong enough to handle some off-road vehicles, like the Euclid R25 and TEREX 3308.

### TITAN PV SPECIFICATIONS

Deck dimensions . . . . . Lengths: 35', 70'  
Width: 10'  
CLC . . . . . 100K  
Gross capacities . . . . . 150K to 300K  
Sections . . . . . 2 to 3  
Modules . . . . . 1 to 2  
Deck Plate thickness . . . . . 3/8"  
Approach ramps . . . . . Formed on site  
Module Data:

Design . . . . . Orthotropic  
Understructure . . . . . Open bottom  
Approvals . . . . . NTEP COC #96-089A3;  
NTEP & FM approved load cells

### PORTABLE AXLE LOAD SCALE IS ACCURATE, VERSATILE

For axle weighing in non-commercial applications, Fairbanks' Potable Axle Load Scale offers easy portability and standard entrance and exit ramps that accommodate the wheel base of most highway vehicles.

The PALS is constructed in a sub-frame that eliminates the need for a pier or slab foundation. A flat, unyielding surface, such as asphalt or concrete, is all that's needed for instant setup.

### PALS SPECIFICATIONS

DTAC . . . . . 60,000 lbs  
Deck Dimensions . . . . . 10' x 6' or 9' x 7'  
Ramp Dimensions . . . . . Full scale width  
Load Cells . . . . . 20,000 lb capacity, self-centering mount  
Deck Plate . . . . . 1/4"  
Sub-frame . . . . . 5" channel  
Full Scale Capacity . . . . . 60,000 lbs x 20 lbs
