

FAIRBANKS®

ULTEGRA® SERIES BENCH SCALES COUNTER INSERT ACCESSORY

Fairbanks Scales continues to innovate new products for more effective package shipping. The Ultegra® Bench Scale Counter Insert is ideal for retail shipping centers.

LOWEST PROFILE AVAILABLE

The Ultegra® Series Bench Scale is perfect for shipping applications because of its extremely low profile. The flat top version of the Ultegra® is a mere 2.48 inches high. When used with the Counter Insert, the scale fits below counter level and only the top portion of its platform is visible. This configuration enables users to easily place packages on and remove them from the scale.

DURABLE

The Ultegra® Counter Insert is made of rugged stainless steel and is guaranteed to support the Ultegra Bench Scale and any package within the scale's weighing capacity. The insert requires minimal counter space and its quality stainless steel surface is aesthetically pleasing.

MAXIMIZE COUNTER SPACE

Using the Ultegra® Bench Scale and its Counter Insert allows for optimal use of counter space and keeps counters looking clean, organized and customer friendly.

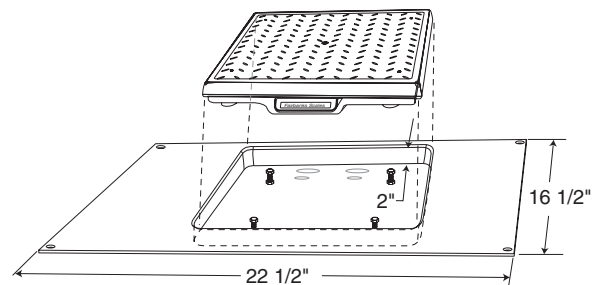

ACCESSORIES

Each Ultegra® Counter Insert includes a splitter that can connect two remote displays to the scale. Remote displays are available as optional accessories.
