

# FAIRBANKS®

## BPB SERIES PORTABLE BENCH SCALES

The BPB Series portable bench scales are virtually maintenance-free, even when used in hostile environments.

### DURABLE AND DEPENDABLE

Built with a heavy-duty, cast iron base and platform, this line of bench beam scales will provide accurate, dependable results over years of daily use, even under the harshest conditions.

The three available models have weighing capacities ranging from 120 to 360 lbs, so you can choose the one which best meets your weighing needs. The rugged, heavy-duty construction also helps prevent tipping when weighing top-heavy or unbalanced items.

### EASY TO USE

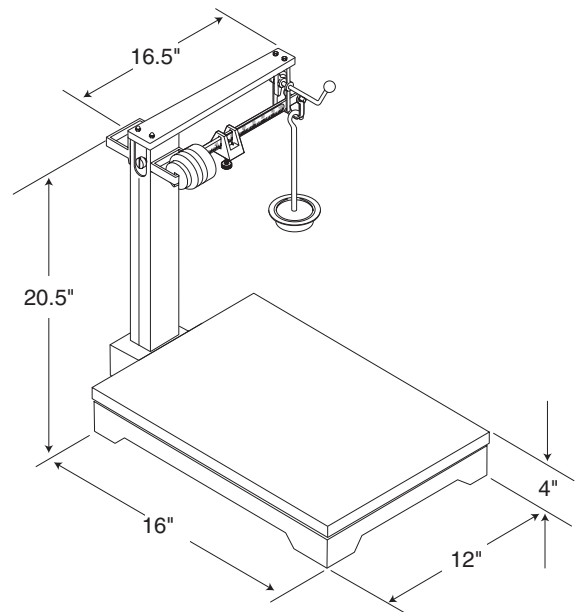

The large, double-sided beam is simple to operate. The numerals on the beam are easy to read so it's never difficult to view the weight readings. Plus, if you need to move the scale to a new location, all you have to do is pick it up and go.

### SPECIFICATIONS

Construction . . . . .	Cast iron base and platform
Models . . . . .	BPB 120; BPB 240; BPB 360
