

FAIRBANKS®

BPP SERIES PORTABLE UTILITY SCALE

The BPP is a rugged, general purpose portable beam scale that's ideal for non-commercial general weighing applications.

DEPENDABLE

Built with a rugged cast iron base and platform, the BPP Series is designed to withstand many years of everyday use.

Four, easy-to-maneuver, five-inch, cast iron wheels are attached to the platform base, so it's always simple to move the scale from one location to another. You're never limited to weighing in just one place.

EASY TO READ WEIGHMENTS

The BPP Series features a large, easy-to-read, double-sided chrome beam with brass measurement bar insert.
