## MULTIPLE ANIMAL LIVESTOCK SCALES WITH “TYPE S” DESIGN

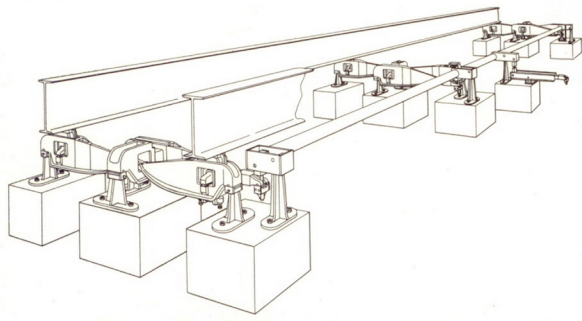

The “Type S” Multiple Animal Livestock Scale features the timeless Fairbanks’ “Type S” mechanical lever design that’s been relied on by American farmers and ranchers since 1921.

### TIMELESS ACCURACY AND DEPENDABILITY

Appropriate for use at ranches, feed lots, auction barns, stockyards and processing plants, Fairbanks’ multiple animal scales ensure livestock weighments are accurate and commercially approved.

The scale’s cast iron, double-web levers minimize twisting and torsional loading — decreasing wear and tear, while ensuring strength, rigidity, and accurate results. Fairbanks’ exclusive parallel link suspension system also extends the life of this livestock scale by minimizing pivot and bearing wear. The suspension system absorbs side shocks and prevents the scale from rocking on the bearings.

### SCALE COMPONENTS AND DIGITAL OPTION

The “Type S” livestock scale comes with cast iron, pit-style, lever weighing assemblies and a field-poured concrete scale deck. Fairbanks offers several instrument options from which to choose, based upon application and data requirements.

*Note: Side rails, racks, gates, and scale instrument are not included with scale purchase.*

### EXTRA PROTECTION IN THE PIT

The “Type S” lever system has been designed to eliminate any pockets or cavities which can potentially retain water or other corrosive liquids. The cast iron levers are also resistant to rust and corrosion — providing long scale life without structural deterioration.

### SPECIFICATIONS

Capacities/sizes . . . . .	See table below
Instrument . . . . .	Various options
eMin . . . . .	.5 lbs
Weighbridge design . . . . .	Dual I-beam construction
Deck construction . . . . .	See table below
Lever type . . . . .	Cast with removable pivots
Foundation . . . . .	Pit type
Approval . . . . .	NTEP CC# 88-157
Options . . . . .	Load cell, remote display, digital instrument, printer

“Type S” Livestock Scale Models			
Model Number	Capacity	Platform Size	Deck Construction
14-6186A	5 tons	14' x 8'	concrete 3"
14-6189A	10 tons	20' x 9'	concrete 4"
14-6197A	20 tons	26' x 14'	concrete 4"
