

FAIRBANKS®

"LEGAL FOR TRADE" FORK TRUCK SCALE, 5900 SERIES

Fairbanks' "Legal for Trad" Fork Truck Scale enables you to weigh on the go, on almost any lift truck, eliminating wasted time and effort and increasing user profits through more accurate product tracking.

EASE OF OPERATION

The 5900 Series Fork Truck Scale is designed so a single operator can move and track materials simultaneously. As soon as the forks are raised, accurate legal for trade weight readings are delivered to the on-board instrument. Then, with the push of a few buttons, the load is checked and tallied.

"LEGAL FOR TRADE" ACCURACY

The 5900 Series Fork truck Scale corrects for out-of-level conditions in all directions, so uneven floors or a tilted mast do not effect accurate "legal for trade" readings. Theis scale even correctly weighs loads at various fork length and width positions.

CONTROLS AT YOUR FINGERTIPS

The 5900 Instrument sits conveniently in the cab, allowing easy access for product tracking and accumulated weights.

WILL NOT OBSTRUCT YOUR VIEW

Safety is a major factor in the 5900 Sereis design. Operators have a clear view of the load and fork truck surroundings at all times.

DURABLE CONSTRUCTION

The 5900 Series scales withstand punishing environments found in many industrial settings, from scrap yards to foundries to shipping docks. Field replaceable steel flexures and rugged construction ensure years of dependable service.

SPECIFICATIONS FOR 5900 SERIES FORK TRUCK SCALE

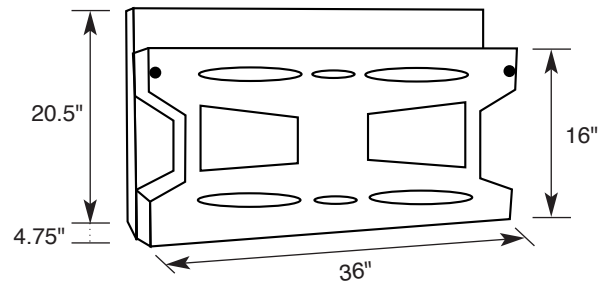

Model 5900 Series
Capacity 5000 x 5 lbs (heavier capacities available)
Accuracy class Class III, 1000 d
Accessories..... Tape Printer ACC 5915

SPECIFICATIONS FOR 5900 SERIES INSTRUMENT

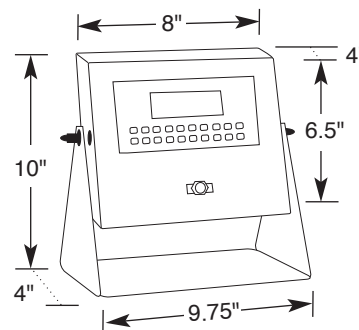

Model IND-5900 Series
Enclosure 12 gage steel, NEMA 2 rated
Display..... 32-character, 2-line, 16 characters per line;
Backlit LCD
